

“Cutting Edge Science for Young Talents”

A Three-day Science Orientation Workshop

May 29 – 31, 2019

(for English Medium Students)

=====

We are going to organize a 3–day Science Orientation Workshop during May 29 – 31, 2019 at our campus. This program is specially designed for the high school students who appeared in their Class 10 Board Examination in 2019 and aspiring to study SCIENCE in +2 Level. The basic objective of this program is to provide the participating students an exposure to various fields of science and technology research and also scopes to interact with eminent scientists across India. During this workshop, number of enrichment lectures will be delivered along with some innovative hands on activities by participating students. We believe that the participants will have a glimpse of the exciting world of science and technology through this workshop. On 31st May, 2019, a parallel interactive session with the parents of participating students will be held from 2.30 p.m. Interested guardians are requested to attend.
